UPPF

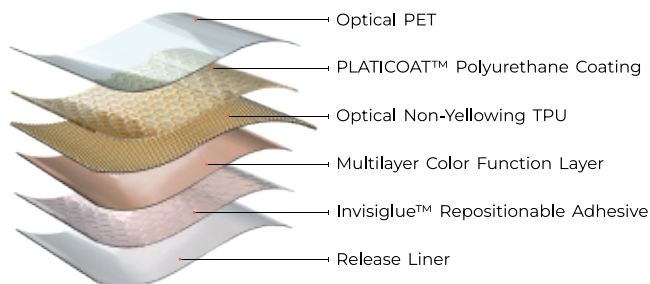

THE POWER OF PROTECTION

PAINT PROTECTION FILM

PRODUCT STRUCTURE

BENEFITS

Stain Resistance

With advanced PLATICOAT™ coating technology, stain resistance is 40% greater than ordinary coating brands; protect your vehicle from acid rain, tree sap, and bird droppings.

Self-Healing

Able to self-heal surface scratches by slightly heating it with a heat gun, protecting from hard debris, dirt, mud, road salt, overspray, and more.

Optical Clarity & High Gloss

Enhance optical clarity and gloss by up to 30% over original car paint; no orange peel appearance.

Easy-Installation

UPPF products adopt the exclusive glue formula called Invisiglu™. This self-developed Invisiglu™ acrylic PSA formulation is different from ordinary glue formulations. Invisiglu™ is a long lasting, high durability adhesive and easy on installation work as applied to PPF products.

10-Year / Lifetime Warranty

From the date of installation, UPPF provides a 10-year or lifetime warranty against cracking, bubbling or yellowing.

ABOUT UPPF

UPPF offers premium paint protection film products to safeguard the original paint on your cars. We have substantially invested in R&D and production capabilities and production capabilities to maximize and bring to the best of creativity, quality control and management of our in-house product lines. We strive to grow UPPF as a trusted global brand over competitors in the high-end automotive film market. Furthermore, we are always looking for new approaches to better collaborate with our global partners across marketing, sales and customer care to satisfy the needs of the nowadays customer.
